

FUNDING AVAILABLE

FOR LEVEL 2 EV CHARGING EQUIPMENT

The **Texas Volkswagen Environmental Mitigation Program** invites applicants to apply for funding to purchase and install new Level 2 Electric Vehicle Supply Equipment (EVSE). This program is supported with funds from the state's allocation under the Volkswagen Mitigation Trust Fund.

PROGRAM ELIGIBILITIES

- Funding is available statewide for EVSE that will be used in public, workplaces, or multi-unit dwelling communities
- Funding is also available to expand the number of EVs that may be serviced at an existing EVSE site
- Counties located in the Clean Transportation Zone may be prioritized

AVAILABLE FUNDING

- Program budget is \$10.4 million
- Funding to be provided as reimbursement; up to \$2,500 per EVSE installed
- Grants will be awarded on a first-come, first-served basis
- Grants may not exceed 70% of a project for EVSE installed at public locations and 60% for EVSE installed at workplace or multi-unit dwelling communities
